

Case Study

Walthamstow Academy
The best in everyone™
Part of United Learning

Client : Franklin Group/United Learning Trust
Scope : LAN infrastructure

General/Brief

We were commissioned to implement and maintain the complete local area network (LAN) infrastructure within the new Walthamstow Academy. The cabling system is designed to support data, voice, CCTV and multimedia services.

The academy is sponsored by the United Learning Trust (ULT), which was established to create a family of academies that provide outstanding education based on the Christian principles of service and tolerance.

Conclusion

This was a very successful project, delivered on time and within budget, meeting and exceeding the client's expectations.
